

Bilal Gonen

Assistant Professor, School of Information Technology, University of Cincinnati
bilal.gonen@uc.edu , <http://bilalgonen.com>

EDUCATION

- Ph.D. in Computer Science and Engineering, University of Nevada, Reno, NV, USA (August 2011)
- M.S. in Computer Science, University of Georgia, Athens, GA, USA (August 2006)
- B.E. in Computer Engineering, Sakarya University, Sakarya, Turkey (September 2002)

APPOINTMENTS

8/2016 - present	Assistant Professor, School of Information Technology, University of Cincinnati
8/2012 - 5/2016	Assistant Professor, Computer Science, University of West Florida
8/2011 - 6/2012	Term Assistant Professor, Computer Science, University of Alaska Anchorage
7/2009 - 6/2011	Research Assistant, Biology Department, University of Nevada, Reno
8/2006 - 5/2009	Teaching Assistant, Computer Science, University of Nevada, Reno Teaching C++ programming, and grading weekly projects.
1/2006 - 8/2006	Research Assistant, Computer Science, University of Georgia, GA, USA
1/2004 - 5/2005	Teaching Assistant, Computer Science, University of Georgia, GA, USA

TEACHING EXPERIENCE

- As Assistant Professor
 - Computer Networks (Fall 2011, Fall 2012, Spring 2013, Spring 2014)
 - Algorithms and Data Structures (Fall 2011, Fall 2012, Fall 2013). [My videos on youtube](#)
 - Java Programming (2011 - 2015) [My videos on youtube](#)
 - Java Programming, Online Class (Fall 2014, Summer 2015). [My videos on youtube](#)
 - Complex Networks (Spring 2012)
 - Intermediate Programming in Java (Spring 2013, Fall 2015). [My videos on youtube](#)
 - Advanced Computer Programming in Java (Fall 2014, Spring 2015). [My videos on youtube](#)
 - Algorithm and Programming Design in C (Spring 2016). [My videos on youtube](#)
 - IT Research Methods (Fall 2016, Fall 2017, Fall 2018)
 - IT Infrastructure Sustainability (Fall 2016, Fall 2017, Fall 2018, Summer 2019). Topics: Cloud Computing, Software Defined Networks, Virtualization, VMware, Azure.
 - Advanced Storage Technologies (Spring 2017, Spring 2018, Spring 2019).
 - Advanced Systems Administration (Spring 2017, Spring 2018, Spring 2019).
- As Teaching Assistant: C++, Database Systems, Data Structures, Algorithms, Internet Programming

RESEARCH INTERESTS

Blockchain, Cybersecurity, Digital forensics in social networks, Big Data, Data Science, Complex Networks, Social Network Analysis, Semantic Web, Machine Learning, Artificial Intelligence, Computer Networks, Underwater Acoustic Sensor Networks, Software Engineering, Algorithms, Bioinformatics.

GRANTS

- **\$100,000.** I worked on a \$100K grant proposal with Dr. Komurov. Dr. Komurov is an assistant professor in Cincinnati Children's Hospital Medical Center. The \$100K was awarded. This is a project of Center for Pediatrics Genomics. The project was funded by Cincinnati Children's Hospital Medical Center. I worked on this project for 1 year (from 6/1/2016 to 5/31/2017). My roles were "Research Scientist" for 3 months, and "Collaborator" for 9 months.
- **\$24,982.** Role: co-PI. Grant name: Semantic Data Modeling for System & Data Comprehension. Type: Competitive External Grant. This project was funded through the Security and Software Engineering Research Center (S2ERC). The received funds supported new research based on the continuation of previous work with Blue-Cross Blue-Shield Association. The new work focuses on the development of knowledge models that capture semantic information of a healthcare domain in a format that is easy to understand by software developers.
- **\$15,000.** Seed grant by University of West Florida.
- **\$1,619.** Travel grant from College of Science and Engineering at the University of West Florida.
- **\$2,250.** Travel grant from College of Arts and Sciences at the University of West Florida.
- **\$1,650.** Travel grant from University of Alaska for IEEE GLOBECOM 2011.

- **\$800.** Education Grants, Amazon Web Services for my Complex Networks course.

CERTIFICATES & AWARDS

- I received “The Golden Apple Award For Excellence in Teaching and Student-Faculty Relations” in 2017 and 2019. The Golden Apple Award is a student-voted honor in our college awarded each year to faculty members, from each academic program, who demonstrate excellence in teaching and student-faculty relations. (2017 and 2019)
- I am a certified Quality Matters Master Reviewer. Quality Matters (QM) is a leader in quality assurance for online education. Master Reviewer (MR) forms a review team; coordinate the review team’s efforts before, during, and after the review; implements the QM course review process; provides guidance to the review team throughout the review and ensures effective recommendations are provided; Ensure that recommendations are constructive, specific, measurable, sensitive and balanced. Coach the review team members as needed. The MR represents QM’s principles and policies on the review and, as QM’s primary point of contact. [[webpage](#)] [[certificate](#)]
- Quality Online Instructor Certificate. I took two online training courses offered by UWF Academic Technology Center. The course names are “Designing a Quality Online and Blended Course” and “Teaching a Quality Online Course”. Upon completion of these 6-week courses successfully, I received “Quality Online Instructor Certificate”.
- Certificate of Quality Matters peer reviewer. I took two online training courses offered by UWF Academic Technology Center. The course names are “Independent Applying the QM Rubric course” and “Quality Matters Peer Reviewer Course”. Upon completion of these 2-week courses successfully, I became a certified Quality Matters peer reviewer. Quality Matters (QM) is a leader in quality assurance for online education.
- My online course, Java Programming, was awarded Quality Matters certification. I submitted the course for internal review in my university. A team of three reviewers reviewed the course. The course has passed the internal review. Then, we submitted it for the official QM review. An external team of three reviewers reviewed the course. My course has received a full score (99 out of 99) and has met all of the 43 QM standards.
- Member of IEEE, ACM, Society for Science & Public (SSP), Florida Association of International Educators
- National Institute of Health (NIH) Web-based training course "Protecting Human Research Participants".
- Certificate of Family Educational Rights and Privacy Act (FERPA) online training course by University of Alaska.
- Ranked 3, ACM programming contest at University of Nevada, Reno (2008).

PROFESSIONAL ACTIVITIES

- I served as a panelist for NSF GRFP (National Science Foundation's Graduate Research Fellowship Program). The Fellowship provides support for research-based masters or doctoral degrees. The American Society for Engineering Education (ASEE) assists the NSF in the development of the discipline-based review panels and maintains a database of appropriate professors, researchers in the fields supported by the NSF. Panelists read and evaluate applications in their areas of expertise. I evaluated 21 applications. (Feb 14, 2019)
- I was invited and served as a panelist for the 2019 National Defense Science and Engineering Graduate (NDSEG) Fellowship's online application evaluation. The invitation came from Department of Defense (DoD) and the American Society for Engineering Education (ASEE). As a means of increasing the number of U.S. citizens and nationals trained in science and engineering disciplines of military importance, the Department of Defense (DoD) plans to award new three-year graduate fellowships for the class of 2019. The NDSEG Fellowship is sponsored by the Air Force Office of Scientific Research (AFOSR), the Army Research Office (ARO), and the Office of Naval Research (ONR) under the Office of the Assistant Secretary of Defense (OSD) for Research and Engineering. I evaluated 20 applicants. (Feb 2019).
- I served as a reviewer for a grant proposal submitted to Arctic Domain Awareness Center (ADAC), A U.S. Department of Homeland Security, Center of Excellence at the University of Alaska Anchorage.
- I attended AP (Advanced Placement) Reading in Kansas City, MO for 7 days. (June 2-8, 2017). This event is organized by Educational Testing Service (ETS). I graded Computer Science programming questions in the AP tests taken by high school students in order to get college credits.
- Panelist on a National Science Foundation (NSF) SaTC Small Projects panel. Arlington, Virginia. [[CNS](#)], [[NeTS](#)] (Mar 2017).

- I was invited and served as a panelist for the 2017 National Defense Science and Engineering Graduate (NDSEG) Fellowship's online application evaluation. The invitation came from Department of Defense (DoD) and the American Society for Engineering Education (ASEE). As a means of increasing the number of U.S. citizens and nationals trained in science and engineering disciplines of military importance, the Department of Defense (DoD) plans to award approximately 180 new three-year graduate fellowships for the class of 2017. I evaluated 31 applicants. (Oct 2016).
- Panelist on a National Science Foundation (NSF) Networking Technology and Systems (NeTS) Small Projects panel. Small Projects: up to \$500,000 total budget with durations up to three years. Arlington, Virginia. [[CNS](#)], [[NeTS](#)] (Apr 2016)
- I was selected as a faculty participant for the 3rd CReST Faculty Workshop held on July 18-19, 2016, at Auburn University.
- National Science Foundation (NSF) and National Center for Women & IT (NCWIT) has accepted my application to attend 2016 CISE/EHR PI and Community Meeting for CS in STEM. This meeting is a centerpiece of NSF efforts to build a community around broadening participation and education efforts in computer science. NSF covers all expenses. Meeting was held at the Gaylord Hotel in National Harbor, Maryland. (February 1-2, 2016) [[Link](#)]
- I attended the 2015 STEM-CP CE21: Computing Education for the 21st Century PI & Community Meeting. I was invited by The National Center for Women & IT (NCWIT) and the National Science Foundation (NSF) to the meeting with all expenses covered. Meeting was held in Baltimore, MD. (Jan 21-23, 2015). [[Link](#)]
- I served as a panelist for NSF GRFP (National Science Foundation's Graduate Research Fellowship Program). The Fellowship provides support for research-based masters or doctoral degrees. The American Society for Engineering Education (ASEE) assists the NSF in the development of the discipline-based review panels and maintains a database of appropriate professors, researchers in the fields supported by the NSF. Panelists read and evaluate applications in their areas of expertise. I evaluated 28 applications. (Jan 6, 2015)
- Served as Subject Matter Expert on Florida Teacher Certification Examination. The Florida Department of Education and Evaluation Systems group of Pearson, the states postsecondary assessment contractor, held a Florida Teacher Certification Examinations (FTCE) item writing and development session in Computer Science. The goal of the session is to write test questions for the Computer Science Teacher Certification Examination. I attended several FTCE Computer Science K-12 Item Specifications Finalization Meetings in Orlando. (11-12 Apr 2013, 3-5 May 2013). \$500 and \$750 stipends received.
- I evaluated the research grant application of a faculty member at Sam Houston State University.
- I am an Associate Editor in Turkish Journal of Engineering, Sciences and Technology.
- Editorial Board in JSciMed Central. JSM Computer Science & Engineering is an international, peer reviewed Open Access, academic and high quality journal.
- I was invited and served as a panelist for the 2014 National Defense Science and Engineering Graduate (NDSEG) Fellowship's online application evaluation. The invitation came from Department of Defense (DoD) and the American Society for Engineering Education (ASEE). As a means of increasing the number of U.S. citizens and nationals trained in science and engineering disciplines of military importance, the Department of Defense (DoD) plans to award approximately 200 new three-year graduate fellowships in April 2014. I evaluated 29 applicants.
- Session Chair, International Conference on Semantic Web and Web Services, Las Vegas, USA, July 2011.
- Session Chair, The 2011 International Conference on e-Learning, e-Business, Enterprise Information Systems, and e-Government, Las Vegas, Nevada, USA, July 2011.

Quality Matters (QM) Course Reviews

- Algorithms and Programming I in Kent State University (May 2017),
- Advanced Malware Reverse Engineering in Florida International University (April 2017).
- Introduction to Network Concepts in Tidewater Community College (Feb 2017).
- Fundamentals of Computer Programming and Data Structures in Columbus State University (Oct 2016).
- Introduction to Sociology at Calhoun Community College (Feb 2016).
- Data Analytics at Ohio Northern University (Jan 2016).
- Network Security Basics at Tidewater Community College (Nov 2015).
- Environmental Impact Assessment in University of West Florida (My role: Review Team Chair) (July 2015).
- Human Resources Management in University of West Florida (My role: Review Team Chair) (June 2015).
- Discrete Structure for Computer Science at University of Southern Indiana (May 2015).

- Computer Communication Networks at Florida International University (Apr 2015).
- Data-Driven Decisions Using Standardized Student Achievement Data in University of West Florida (Jan 2015).
- Configuring Windows Server 2012 Advanced Services in Polk State College (Mar 2014).
- Organizational Behavior at Florida International University (Nov 2014).
- Secure Telecommunication at Florida International University (July 2014).
- Applications of Information Technology in University of West Florida (Mar 2014).
- Database Administration in University of West Florida (Nov 2013).
- Software Assurance in University of West Florida (Dec 2013).
- Software Design in University of West Florida (Sep 2014).

Quality Matters (QM) Publisher Course Reviews

I am a Quality Matters (QM) Master Reviewer Publisher. I reviewed these publisher courses and also chaired the review teams;

- MindTap for Malik's C++ Programming for Cengage Learning Inc. (May 2017).
- MindTap for Lambert's Fundamentals of Python for Cengage Learning Inc. (May 2017).
- MindTap for Hands-On Ethical Hacking and Network Defense for Cengage Learning Inc. (April 2017).
- MindTap for Principles of Information Systems for Cengage Learning Inc. (April 2017).
- MindTap for Tilley's Systems Analysis and Design for Cengage Learning Inc. (April 2017).
- MindTap for Whitman's Mgmt of Info Security for Cengage Learning Inc. (April 2017).
- MindTap for Ciampa's Security Awareness for Cengage Learning Inc. (March 2017).
- MindTap for Andrew's A+ for Cengage Learning Inc. (July 2016).
- MindTap for West's CompTIA Network+ for Cengage Learning Inc. (June 2016).
- MindTap for Ciampa's CompTIA Security+ for Cengage Learning Inc. (June 2016).

Journal and Conference Reviewer

- [1] I served as reviewer for Society for Information Technology and Teacher Education (SITE) 2019 Conference. Las Vegas, NV (March 18, 2019). I reviewed 15 papers (Jan 2019).
- [2] I served as a reviewer for a manuscript submitted to IEEE Access Journal (Nov 2018).
- [3] I served as a reviewer for a manuscript submitted to Computers & Security Journal (Elsevier). (Sept 2018)
- [4] I served as reviewer for Journal of Network and Computer Applications (JNCA). I reviewed a manuscript about Multi-Attribute Query Resolution in Structured Peer-to-Peer Networks (Jan 2017).
- [5] I served as reviewer for Ohio Academy of Science Annual Conference at The University of Cincinnati. I reviewed 3 abstracts. (Dec 2016).
- [6] I served as reviewer for SITE 2017 conference, the Society for Information Technology and Teacher Education. Austin, Texas (March 5, 2017). I reviewed 6 papers (Nov 2016).
- [7] I served as reviewer for Journal of Sensors (ISSN 1424-8220) by MDPI. MDPI.com is a platform for peer-reviewed, scientific open-access journals operated by MDPI AG, based in Basel, Switzerland. I reviewed a manuscript about Underwater Wireless Sensor Network (Nov 2016). [[web](#)].

Service to University

- I served as a committee member in the CECH RPT Committee during my third year at UC (AY 2018-2019). I reviewed 33 dossiers submitted for Reappointment, Promotion and Tenure. I attended meetings and contributed to decisions with discussions, and preparing the letters.
- I have been serving on the CECH Academic Technology Instructional Design (ATID) Committee since Fall-2018. "The Academic Technology and Instructional Design Board (ATID) is a group of faculty members, instructional designers, and instructional technologists who meet to discuss innovative strategies in technology enabled learning. We share knowledge, resources, and technology solutions to improve the teaching and learning experience for all classrooms, whether face-to-face or online.". My responsibilities were attending ATID board meetings to discuss current issues related to the College's instructional design and technologies, and to review CECH Instructional Research and Development Technology Grant proposals.
- I serve in the Academic Technology and Instructional Design (ATID) committee in our College (2017-2018 AY).
- I served as a judge for Student Poster Session at the UC Data Day (March 2017).
- I served as a reviewer for CECH Graduate Student and Faculty Research Mentoring Grant. I reviewed 4 proposals. (Jan 2017).
- I served as a committee member in the CECH RPT Committee. (2016-2017).
- I served as the chair of College Council of College of Science and Engineering (CSE) at the University of West Florida. There are representatives from 14 departments of the College. We hold meetings every month. We discuss and make decisions on issues at the college level. I was elected for three years. In the first year, I participated several subcommittees in the council, i.e., Curriculum and Planning Committee, Governance Committee. In the Curriculum and Planning Committee, we reviewed Curriculum Change Requests, and approved or rejected them. In my second year, I served as Vice Chair. In the third year, I am serving as the chair for the council. We, as the steering committee, meet with two deans (CSE and College of Health) every month to discuss the decisions made in our meetings, and convey the concerns of faculty members.

- I served as a judge for UWF Student Scholars Symposium in 2013, 2014, and 2015. I was the lead judge in 2015. Each year, I visited around 10-20 projects developed by undergraduate students, listened their research talks, and evaluated them. The Student Scholars Symposium features scholarly and creative works produced through collaboration between UWF students and faculty.
- I volunteered to conduct the interviews at the President's Scholarship Competition at UWF. There were over 160 high achieving, high school students traveling from all over the state to compete for UWF's most prestigious academic scholarships (14 full ride scholarships and 150 smaller academic scholarships). I interviewed 3 students and evaluated them. (Date: 1/24/2014).
- I was selected as the Lead Judge in Computer Science and Math category in Annual Science & Engineering Fair. I interviewed around 16 students to learn about their projects and graded them. This fair is a partnership of the College of Arts & Sciences and the Science Departments from Escambia and Santa Rosa County School Districts. There were over 200 middle and high school projects. (Date: 1/26/2014).
- I served in the search committee for a faculty position in Electrical and Computer Engineering department. (1/9/15)

Service to Department

- I served as a reviewer for IT Research Symposium in the IT Expo 2019. (April 2019)
- I served as a judge for High School Poster Competition in the IT Expo 2019. (April 9, 2019)
- I chaired a task force to review the School RPT document. The committee was composed of three faculty members, including myself. We read the existing 2013 RPT document of our school and also the RPT documents of three other schools in our CECH college, thoroughly. We had multiple meetings and tons of email conversations to discuss the necessary changes. I presented the proposed draft to our faculty members. We will have more meetings to discuss the new draft further.
- I served on the search committee for two tenure-track position during my third year (AY 2018-2019). We reviewed the applicants' documents, discussed the qualifications in meetings, and we conducted Webex and campus interviews.
- I served as a member in the ABET committee (2016-2017).
- Program chair for the IT Research of IT Expo (Apr 2017).
- Judge for senior projects at IT Expo 2017 (Apr 2017).
- I served as the learning coach in the CBE program (Summer 2017).
- I was member of around nine committees in Computer Science department at University of West Florida (Curriculum Committee, Resource Committee, Undergraduate Program Committee, Graduate Program Committee, Cyber Security Program Development Team, ABET Assessment Committee, Graduate Admissions Committee) (2012-2016).
- I served in the search committee for faculty lines in our department. I participated phone interviews, one-to-one meetings with the faculty candidates during their campus interviews(2012-2016).
- I served as the coordinator of lab tutors. I was in charge of hiring new tutors, scheduling the tutors. (2014 - 2016)
- Advised students about their course selections and future career decisions (2012-2016).
- I served as Search Committee member for Coordinator position for Cyber security program in our department. We looked at around 15 applications and discussed the qualifications (2015).

Service to Community

- I am a graduate of The 2017 FBI Citizens' Academy Foundation of Cincinnati. (4/2017 – 6/2017). I attended the FBI Citizens' Academy program for 8 weeks. The classes were 5:30pm-9:00pm on Thursdays. The Citizens' Academy is a stimulating program that gives business, religious, civic, and community leaders an inside look at the FBI. During the Academy, students participate in firearms demonstrations and practical problems involving the collection and preservation of physical evidence; are introduced to the structure and operation of an FBI field office and resident agency; are provided an overview of the legal basis for the FBI's jurisdiction and issues relating to congressional oversight; and learn the services the FBI provides to local and state law enforcement agencies. The Academy classes are taught by FBI staff, and/or others deemed appropriate by the division's Special Agent in Charge (SAC). I am also a member of FBI Cincinnati Citizens Academy Alumni Association.
- President of Turkish Student Association, University of Georgia, USA (8/2004 – 5/2006)

- Interpreter Volunteer, The INTEL International Science and Engineering Fair (3/2009)
The world's largest international pre-college science competition. 1,600 finalists from nearly 60 countries.

INDUSTRIAL WORK EXPERIENCE

5/2009 – 8/2010	Software engineer and database admin, PowerDEX Inc., Reno, NV (MVC, Silverlight, .NET 4.0, AJAX, C#, MSSQL, MySQL, PHP, JavaScript, CSS)
5/2008 – 8/2008	Web programmer, Testwave LLC., Reno, NV Developed a database-driven system in ASP.NET 3.5, MS SQL server
5/2007 – 8/2007	Web programmer, Yourally Inc., Reno, NV (PHP, MySQL, HTML, JavaScript, CSS, AJAX)
7/2001 – 9/2001	Intern, Datateknik Exper, Computer Production Factory, Istanbul, Turkey. Served in Production, Assembly Line, Technique Service, Networking.
8/2000 – 10/2000	Intern, Web developer, Channel D Television, Istanbul, Turkey.

SKILL SET

Java, C#, C++, C, Python, JavaFX, R, RStudio, Shiny, Silverlight, .NET 4.0, MSSQL, PHP, MySQL, MVC, HTML, JavaScript, AJAX, CSS, VMware products (Workstation, vSphere, vCenter Server), Hyper-V, Azure .
