

## PUBLICATIONS

1. "Spin-glass and ferromagnetic states in amorphous solids", with E.M. Chudnovsky, Phys. Rev. B (Rap. Comm.) 26, 2697 (1982).
2. "Phenomenological theory of amorphous magnets with small random anisotropy", with E.M. Chudnovsky, J. Phys. C 16, 4181 (1984).
3. "Magnetic properties of solids with small random anisotropy", with E.M. Chudnovsky, J. Magn. Magn. Mat. 43, 48 (1984).
4. "Correlated spin glass: a new way to extremely soft magnetic materials", with E.M. Chudnovsky, I.E.E.E. Trans. Magn. MAG-20, 1400 (1984).
5. "Ordering in ferromagnets with random anisotropy", with E.M. Chudnovsky and W.M. Saslow, Phys. Rev. 33, 251 (1986).
6. \*"Reentrant melting on an imperfect surface", Phys. Rev. 33, 3403, (1986).
7. \*"New aspects of variable-range hopping in finite one-dimensional wires", with R.K. Kalia and P.A. Lee, Phys. Rev. B 33, 8441 (1986).
8. \*"Continuous-symmetry ferromagnet with weak random anisotropy: a numerical study", with P.A. Lee, Phys. Rev. B 34, 1806 (1986).
9. \*"Continuous-symmetry ferromagnet with random anisotropy", with P.A. Lee, J. Appl. Phys. 61, 3965 (1987).
10. \*"Conductance fluctuations in small disordered conductors: Thin-lead and isolated geometries", with S. Feng, C. Kane, and P.A. Lee, Phys. Rev. B 36, 5031 (1987).
11. \*"Thermoelectric fluctuations in multilead devices", with M. Ma and B. Goodman, Phys. Rev. B (Rap. Comm.) 37, 6540 (1988).
12. "Long-range correlations in disordered metals", with C. Kane and P.A. Lee, Phys. Rev. B 37, 6701 (1988).
13. \*"Spin-wave localization in ferromagnets with weak random-axes anisotropy", Phys. Rev. B (Rap. Comm.) 37, 9901 (1988).
14. \*"Fluctuating variable-range-hopping conduction in two dimensions", Solid State Commun. 67, 1031 (1988).
15. \*"Fluctuations of ultrasonic attenuation in mesoscopic systems: A test for isolated geometries", Phys. Rev. B 39, 12640 (1988)
16. \*"Spin-wave localization in ferromagnets with random anisotropy", J. Appl. Phys. 64, 5625 (1989).
17. \*"Current conservation and the nonlinear sigma-model in mesoscopic systems", with F.P. Esposito and M.Ma, Phys. Rev. B 39, 2952 (1989) (Rap. Comm.).

18. "Resistance distribution function for fluctuating variable-range hopping conduction," with J. Yu, Phys. Rev. B40, 1250 (1989).
19. \*"Variance fluctuations and sample statistics for fluctuating variable-range hopping conduction", with J. Yu, in *Nanostructure Physics and Fabrication*, Academic Press, (1989).
20. "Effects of localization and mesoscopic phenomena on ultrasonic attenuation in a disordered piezoelectric metal," with D.B. Mast, Phys. Rev. B41, 7850 (1990).
21. \*"Theory of Landau diamagnetism of dirty metals," with S. Oh, Phys. Rev. B41, 10523 (1990).
22. \*"Frequency-dependent conductivity of a finite disordered metal," with J. Yu and Y.H. Kim, Phys. Rev. B42, 9724 (1990) (Rap. Comm.).
23. "Orbital magnetism of mesoscopic systems," with S. Oh, and A.Yu. Zyuzin, Phys. Rev. B44, 8858 (1991).
24. "Orbital magnetic response of disordered metallic systems with Kondo impurities," with F.P. Esposito and A.Yu. Zyuzin, J. Appl. Phys. 70, 6175 (1991).
25. "Mesoscopic fluctuations of electron spin polarization in disordered conductors," with A.Yu. Zyuzin, Phys. Rev. B45, 12094 (1992).
26. \*"Chaotic quantum billiards in magnetic field: a semiclassical analysis of mesoscopic effects," Solid State Commun. 84, 843 (1992).
27. \*"Orbital magnetism of mesoscopic metals: beyond the perturbation theory," Mod. Phys. Lett. 6, 1455 (1992) and *ibid.* 7, 117 (1992) and 7, 1231 (1993).
28. \*"Orbital magnetism of mesoscopic metals: extension to the non-perturbative regime," with A.Yu. Zyuzin, Phys. Rev. B47, 6399 (1993) and *ibid.* B48, 17649 (1993).
29. \*"Local magnetic fields in disordered metals," with A.Yu. Zyuzin, Phys. Rev. B47, 14549 (1993).
30. "Orbital magnetic response of quantum dots: a signature of electron-electron interactions," with Y.H. Zeng and B. Goodman, Phys. Rev. B47, 15660 (1993).
31. "Scaling in quantum chaos: A study of quantum dots," with Y.H. Zeng, Phys. Rev. B50, 2492 (1994).
32. \*"Quantum limit of chaotic systems as quantum diffusion," Mod. Phys. Lett. B8, 1243 (1994).
33. "Thermodynamics of finite quantum systems: Application to spin magnetism," with S. Sitotaw, Physica Scripta 53, 23 (1996).
34. "Thermodynamics of finite quantum systems: Application to spin magnetism II," with S. Sitotaw, Physica Scripta 53, 521 (1996).

35. "Level correlations and persistent currents in mesoscopic metals," with S. Sitotaw, *Physica Scripta* 60, 283 (1999).
36. \*"Classical absorption in small metal particles and thin films," with B. Goodman, *Mod. Phys. Lett. B*13, 649 (1999).
37. \*"Quantum absorption in small metal particles and thin films," with B. Goodman, *Mod. Phys. Lett. B*13, 969 (1999).
38. \*"Van Vleck response of a two-level system and mesoscopic orbital magnetism of small metals," *Solid State Commun.* 117, 99 (2000).
39. \*"Permanent magnetic moment in mesoscopic metals with spin-orbit interaction," *Solid State Commun* 117, 605 (2001).
40. "Polarizability and absorption of small conducting particles in a time-varying electromagnetic field," with B. Goodman, *Physica* B305, 208 (2001).
41. \*"Mesoscopic fluctuations of orbital magnetic response in level-quantized metals," *Physica* E15, 211 (2002).
42. \*"Level correlations in integrable systems," with J.M.A.S.P. Wickramasinghe, *Int. J. Mod. Phys. B*16, 4649 (2002).
43. "The persistence of strong correlations in the energy spectrum of a separable Hamiltonian system: The rectangular box," with J.M.A.S.P. Wickramasinghe and B. Goodman, *Phys. Rev.* E72, 056209 (2005).
44. "Mesoscopic fluctuations of off-diagonal matrix elements of the angular momentum and orbital magnetism of free electrons in a rectangular box," with M. Lou and J.M.A.S.P. Wickramasinghe, *Phys. Rev.* B75, 224401 (2007).
45. "Mesoscopic orbital magnetism in an integrable system," with M. Lou and J.M.A.S.P. Wickramasinghe, *Int. J. Mod. Phys. B*21, 4323 (2007).
46. "Quantum jumps of saturation level rigidity and anomalous oscillations of level number variance in the semiclassical spectrum of a modified Kepler problem," with J.M.A.S.P. Wickramasinghe and B. Goodman, *Phys. Rev.* E77, 056216 (2008).
47. \*"Correlation function of spectral staircase and particle number fluctuations in integrable systems," arXiv:0812.3118 (2008).
48. \*"Effects Sample-Specific Variations and Fluctuations of Thermal Occupancy on Fluctuations of Thermodynamic Quantities," *Int. J. Mod. Phys. B*23, 5619 (2009).
49. "Elliptic billiard — a non-trivial integrable system," with Tao Ma, arXiv:1103.2720 (2011).
50. "Quantum mechanical calculation of spectral statistics of modified Kepler problem," with Tao Ma, *Phys. Rev.* E85, 036211 (2012).
51. "Level Repulsion In Integrable Systems," with Tao Ma, *Int. J. Mod. Phys. B*26, 1250095 (2012).

52. "Global Level Number Variance in Integrable Systems," with Tao Ma, arXiv: 1203.1610 (2012).
53. "Distribution of Wealth in A Network Model Of The Economy," with Tao Ma and John G. Holden, *Physica A* 392, 2434 (2013).
54. "Change in Time – A Comment on "Physiologic Time: A Hypothesis," with John G. Holden and Tao Ma, *Phys. Life Rev.*, 10, 231 (2013).
55. "A Model for Stock Returns and Volatility," with Tao Ma, *Physica A* 398, 89 (2014).
56. "Distribution of Human Response Times," with Tao Ma and John G. Holden, *Complexity*, 21, 6, (61-69), (2015).
57. "Spectral and Parametric Averaging for Integrable Systems in Quantum Chaos", with Tao Ma, *Int. J. Mod. Phys. B* 29, 1550109 (2015).
58. "Probability Density of Response Times and Neurophysiology of Cognition" with Z. Liu and J. G. Holden, *Adv. Complex Sys.* 19, 1650013 (2016).
59. "Correlation and Relaxation Times for a Stochastic Process with a Fat-Tailed Steady-State Distribution." with Z. Liu, *Physica A* 474, 301 (2017).
60. "On absence of steady state in the Bouchaud–Mézard network mode," I with Z. Liu, *Physica A* 491, 391 (2017).
61. "Modeling Response Time with Power-Law Distributions," with Z. Liu, M. Dashti Moghaddam and J. G. Holden, *Nonlinear Dynamics, Psychology, and Life Sciences* 23, 433 (2019).
62. "Distributions of Historic Market Data - Stock Returns," with Z. Liu and M. Dashti Moghaddam, *Eur. Phys. J. B* 92, 60 (2019).
63. "Distributions of Historic Market Data -- Implied and Realized Volatility," with M. Dashti Moghaddam and Z. Liu, *Applied Economics and Finance* Vol. 6, No. 5; (2019).
64. "Modeling Response Time Distributions with Generalized Beta Prime," with M. Dashti Moghaddam, Jiong Liu and John G Holden, *Discontinuity, Nonlinearity, and Complexity (DNC)* 9(3), 477-488 (2020).
65. "From a Stochastic Model of Economic Exchange to Measures of Inequality," with M. Dashti Moghaddam and Jeffrey Mills, *Physica A* 559, 125047 (2020).
66. "Implied and Realized Volatility: A Study of Distributions and Distribution of Difference," with M. Dashti Moghaddam and Jiong Liu, *Int. J. of Finance and Economics*, 26 (2), 2581-2594 (2021).
67. "Combined Heston-Multiplicative Model for Stochastic Volatility," with M. Dashti Moghaddam, *Physica A* 561, 125263 (2021).
68. "Distributions of Historic Market Data – Relaxation and Correlations," with M. Dashti Moghaddam, *Eur. Phys. J. B* 94, 83 (2021).

69. “Rethinking Generalized Beta family of Distributions,” with Jiong Liu, Eur. Phys. J. B 96, 24 (2023).
