

# Assignment 1

→ Dataset available on the course website

↳ <http://homepages.uc.edu/~niunn/courses/>

→ Objectives

↳ Use the given set of functional requirements (FRs) to build an  $i^*$  model

↳ Use your  $i^*$  model to make the FRs more complete by following softgoal-based tradeoff analysis

→ Due: before 8:30am on Friday (July 12)
